OUTLINES.

Mayor Weaver is confident that enough councilmen who voted for the gas works steal in Philadelphia will come over to him to sustain his veto of the infamy; the mayor is made the hero of the hour——There are indications that Admiral Rojestvensky has divided his fleet, while one cablegram states that the whole fleet is anchored near Woosung, China, where the German fleet is on the look out for the battle that is liable to take place any day between the Japanese and Russians; The Russians cavalry with Gen. Linevitch is reported to have made a successful raid against the Japanese, dispersing a valuable transport wagon train nearly five miles long——Senator Simmons called on President Roosevelt yesterday accompanied by Mr. W. A. Erwin, the Durham man who spoke in the Southern Industrial Parliament on Thursday attributing such greatness and extraordinary powers to the President; President Roosevelt told Senator Simmons he would visit Raleigh October 2nd, and the date for the State fair will probably be fixed then instead of October 16th——Baron de Alphonse Rothschild, the world's most famous banker, died yesterday morning in Paris; the governments of Europe depended on him for money, and among his American transactions was to finance the purchase of the Louisville and Nashville Railroad by the Atlantic Coast Line——The Southern Presbyterian General Assembly at Fort Worth, Tex., yesterday failed to take action on the question of federation with other branches of the Presbyterian church——New York markets yesterday: Money on call easy at 2 1-4 to 2 1-2 per cent., closing bid 2 1-4, offered at 2 1-2; cotton, spot quiet, 8.50; flour quiet; wheat irregular, No. 2 red, 109 1-2 nominal elevator; corn easy, No. 2 nominal; oats barely steady, mixed 35 to 35 1-2; turpentine firm, 75 to 75 1-2; rosin firm, 4.00 asked.

Men of mark have to come to the scratch.

The playing card trust goes right on doing business because nobody wants to let on that it is not giving them a square deal.

If President Roosevelt had the heart to do it he could unload a whole stock of gold bricks on that Mr. W. A. Erwin, of Durham, N. C.

Everything seems to be quiet in Santo Domingo. Collections by Roosevlet's customs officers must be doing a good business, as news comes from the Dominicans that they are satisfied.

Says the Raleigh Post: "A modern telephone inventor says he is going to talk around the world." Many a married man would take interest in his machine if it could help him to talk around the lady of the house.

President Roosevelt won't get so far on the road to the cheaper markets of the world but that the captains of industry will convince him that it is necessary some times for every military man to mark time.

A writer denies that men of this day and generation are looking for trouble. People who write those sort of things will persist in over looking the fact that the issuance of marriage licenses is always on the increase.

The Raleigh News and Observer contains this saying: "A very great man once said that many crimes were committed in the name of liberty." We know of a lot of misdemeanors also that are committed by married men in the name of liberty. They aequire the habit of inveterate prevaricators when they attempt to give the family boss reasons why they are down town late enjoying their liberty.

Only last Saturday the Charlotte Chroniele published a magnificent Southern industrial edition, and on Thursday that splendid paper celebrated the second anniversary of its publication. We could say a whole lot about the superiority and enterprise of the Chronicle as a purveyor of the news, and about the versatility and ability displayed in its editorial columns, but we see no use of writing what might appear to be the beginning of a long story.

A large part of yesterday was devoted by the visitors to recreation and pleasure. The party took a special car for the trip at 3:30 o'clock and returned early in the evening.

The morning business session yesterday was called to order at 9:30 o'clock by by the president of the conference organization, Mrs. J. E. Underwood, of Elizabeth City. Devotional exercises were conducted by Rev. J. M. Culbreth, of Wilmington.

Mrs. R. Q. Burton, of Raleigh, made her report as superintendent of the literature and press department. Mrs. Burton is editor of the Home Mission department in the Raleight Christian Advocate.

There was a continuation of the discussion on ways and meants after those reports were all in, and the meeting adjourned for the half hour Bible study by Rev. Mr. Watson. The topic for the day was "The Four Gospels," and the lecture was pronounced most interesting by all who heard it.

"Bully" from Alabama.

Upon complaint of Mr. J. M. Bryant, superintendent of Winter Park Gardens, the new suburban settlement on the Wrightsville car line, Justice Bornemann and Policemen Alex. Wells and G. R. Holt last night arrested, at a house back of the W. L. I. armory, a negro named James Carver, who proclaims himself "A Bully from Alabama." Carver is charged with striking a negro named Joe Pickett over the head with a shovel and otherwise terrifying a party of colored laborers at Winter Park. Carver was lodged in jail for trial before Justice Bornemann at noon to-day.

Rain Injuries Truck.

Truckers complain that the excessive rains of the past week or ten days have seriously injured a number of crops. Snap beans, now about ready to ship, are rusting badly, and wax beans are practically ruined in many sections. Potatoes are also being badly damaged, but on account of the already over-production further South and the slump in price in consequence thereof, very little complaint is being made.

Remains Interred Here.

The remains of the late T. C. Moore were brought to the city from White Lake, Bladen county, yesterday and laid to rest in Oakdale cemetery with funeral services by the Rev. A. W. Seabrease, rector of Saint Paul's Episcopal parish. The pall-bearers were: Capt. E. G. Parmele, Messrs. J. D. Poisson, J. A. Everett and Mr. Alderman.

TWO OUT OF TWENTY-ODD.

Negroes Captured at Hilton Arraigned Beford Mayor yesterday.

The Mayor's court presented the appearance of a minstrel first part when the curtain went up at noon yesterday. The star performers were the 20-odd colored gentry rounded up by the police in Hilton Park Thursday afternoon. Each and every one was cocked and primed with an excuse and it was the Mayor's portion to listen and pass upon them all. All but two of them, with a third put down as "doubtful," furnished satisfactory evidence of recent employment and were discharged. The unfortunate ones were Isaac Pollock and Henry Quince, each of whom was given a straight sentence of 30 days on the roads. Joe Simmons was the "doubtful character," and he was ordered held for any semblance of evidence that he had done an honest day's work within the past week or ten days.

Henderson Hayes, an old-timer who long ago broke the record for time served on the roads, looked disdainfully upon the other court offenders. He was charged with being merely drunk and disorderly, and was given 30 days in the workhouse. Other cases were of no interest.

Old Man For Vagrancy.

Henry Lumsden, a painter by trade and an old Confederate soldier, was arrested yesterday at the instance of his wife, upon a charge of vagrancy. To New Subscribers

For the next sixty days will mail THE MORNING STAR to subscribers outside the city at the following reduced rates:

FOR ONE YEAR $4.00
FOR SIX MONTHS $2.00

Positively, no subscription will be taken at the reduced rates for a period less than six months. For one month the price will be, as heretofore, $1.25 for three months; or, fifty cents for one month.

This offer, as will be noted, is for a limited period only, and is made for the purpose of giving those who appreciate the value of a daily newspaper an opportunity to read the STAR for six months, or more, at a cost of about one and a quarter cents per copy, and then determine whether or not they will continue their subscription at the regular price.

No name will be entered on our books under this offer unless the order is accompanied with the cash.

While this proposition is made primarily to secure new subscribers, old subscribers outside the city may avail themselves of its advantages at the reduced rate provided they pay all arrearages and for not less than six months in advance.

On account of the heavy expense attached to our city circulation department this offer does not apply to city subscribers.

Sample copies mailed free to any address.

WILMINGTON, N. C.

Saturday Morning, May 27.

ITALIAN IMMIGRANTS IN THE SOUTH.

The Southern Industrial Parliament which held its meeting this week in Washington emphasized the fact that the South needs labor and seeks immigration from other lands across the seas. Senator Simmons in his speech before the parliament told the parliament that there is a "labor famine" in the South and he had some practical things to say about the matter. He let it be known that while the South wants immigration, it does not want the scum of creation.

We want good people and we will have to keep our eyes skinned to keep out the ones we do not desire, for States which now have more of an undersiable class of foreigners than they want are quite likely to act as our press agents without any pay. This reminds us of a cartoon which the Nashville, Tenn., Banner printed recently. It was the picture of two men bending under their respective burdens. One man represented the South laboring under a heavy burden placarded "Colored Population," while the other man representing the North is bending under a load placarded "Foreign Immigration." The South is saying to the North: "Wish we could swap ends."

The press of the North is interested in giving the South some of its foreign population and many articles are published calling the attention of foreigners to the attractive opportunities in the South. The New York Times of Thursday, in an editorial, presents this picture to the Italians who have huddled in a comparatively few States after landing in America:

"The manager of the great Corbin plantation near Greenville, Miss., states some facts of interest as to the opportunities offered in the South for Italian immigrants. Speaking from personal observation, he says that as a cotton grower the Italian is in every way superior to the negro, and that he will make an average profit of $5 from cotton where the negro makes $1. He thinks that the only solution of the labor problem in the Mississippi delta is to be found in the encouragement of Italian immigration. Of those who have already gone there he says they are industrious, frugal, and enterprising. Thousands have been established in colonies in Mississippi, where they are prospering. It is the rule among them that the immigrant acquires land, builds himself a good house, keeps out of debt, and quickly becomes an independent, prosperous citizen.

"Special statistics complied for the census by Mr. Eliot Lord of the Census Bureau, by Mr. J. D. Trenor, Chairman of the Immigration Committee of the National Board of Trade, and others for whom the subject has interest, confirm the conclusions above quoted. A number of Italian agricultural colonies have been planted not only in Mississippi, but in other parts of the South. In California, for example, more than 3,000 farms, ranches orchards, and vineyards are owned by Italian immigrants, and more than a thousand firms of Italians are doing business in that State, with an aggregate capital of about $20,000,000. Efforts to interest Italians in sugar growing on the cane plantations of the Lower Mississippi Valley have been attended with gratifying success, and thousands of them are profitably engaged in truck growing. They are so much preferred to negro labor that very attractive inducements are offered to them, and negotiations begun on responsible authority for groups or colonies of Italians who in the cities would have very little opportunity for anything more satisfactory than organ grinding, banana peddling, or following the unskilled occupations which are always precarious, will be met with enthusiastic co-operation by Boards of Trade and industrial associations everywhere throughout the South. The conditions of climate and temperature are there more congenial to the Italian peasant than are those of the North and West.

"This would appear to offer opportunity for some well-directed effort by the representatives of the Italian Nation in our citizenship who are desirous of helping their own people. Under almost any conditions the Italian will do better out of the cities than crowded into their 'slum' neighborhoods. The census of 1900 showed that there were nearly half a million in the United States, of whom only about 132,000 were found outside the North Atlantic States. New York City alone had 145,433. The totals are now somewhat larger, but it is probable the ratios of distribution are pretty much the same as in 1900. The natural field of usefulness of the Italian peasant is the South. His tastes are agricultural and experience has shown that under favorable conditions he quickly becomes ambitious and prosperous."

The South is not afraid of the better class of Italians, and it appears from the above that they have shown that they make good settlers.

TREE FIGHTS IN SELF DEFENCE.

Forestry and Irrigation, published at Washington, D. C., prints a story and a cut illustrating a fight to the finish in the vegetable kingdom, and it is interesting to observe that the scene of the strange contention for mastery is in a North Carolina forest. Accompanying the cut is an article under the heading "A Vegetable Combat."

The combatants are a live oak and a huge grape vine. The tree divides a short distance above the root and the grape vine having sapped the life out of the root of the tree supports itself by laying in the crotch of the tree. There is where the tree got the grape vine by the throat and the picture shows that the tree is now squeezing the life out of the grape vine, a clear case of self defense.

Forestry and Irrigation says:

"Here is a sturdy live oak, perhaps several centuries old, and beside it in early days a grape vine started its existence. Little by little it extended its octopus-like branches up and finally over the oak. In course of time it nearly enveloped it, appropriating to itself the life-giving sunlight for which the live oak was also striving. How long the struggle must have continued is shown by the great size of the vine, for its trunk had attained the unusual size of nearly a foot in thickness. This size is also evidence that it was winning the victory, as is further attested by the fact that it had partly killed the tree. But one of its massive folds near the base had become involved in the crotch of the tree which gradually closed in upon it, constricting it, as tho with monstrous jaws, until it has nearly killed the vine. It is only a question of a little more time when its destruction will have been complete and the tree will again revel in its full measure of coveted sunlight."

The scene is in eastern North Carolina for there is the live oak and the grape vine covered with gray moss which in time will put both the vine and the tree out of business.

CURRENT COMMENT.

—Governor Glenn having been elected president of the Southern Industrial Parliament, it might not be a bad idea for him to sleep over the suggestion to change its name. Almost anything other than "Parliament" would do.—Charlotte Chronicle.

—Charity and Children expresses surprise that The News should have anything good to say about Judge Peebles. We see that the wave of prejudice against Judge Peebles, which swept over the State last year, has not entirely died out, but that does not change our opinion of the man the least bit. We have though all along that he is one of the ablest men on the Superior Court bench, and we have had no reason to change that opinion. —Charlotte Chronicle.

—There is simply no way of getting around Secretary Shaw's logic. He announces with serene confidence that the deficit will be reduced if the receipts for June are in excess of the expenditures.—Washington Post.

—The discussions of the Washington parliament, therefore, may prove of practical advantage to the South in the mere intellectual stimulus they will afford. Nowhere else in the union is there more ability, and happily in no other is there now more zeal for improvement, but it is zeal which needs wise direction.—New York Sun.

—Now that there is a discussion of safer means for the transportation of high explosives, interest centers in the method that will be employed in conveying Thomas W. Lawson from Boston to Ottawa, Kan., for his Fourth of July speech.—Indianapolis Star.

—A war correspondent writes: "The Japanese soldiers to not keep step, and have no more style about them than a herd of buffaloes." This will be extremely painful information for Gen. Nelson A. Miles. He will find difficulty in understanding how a soldier out of step or with a button off his jacket can possibly be a fighter.—Savannah News.

COTTON MARKETS.

New York, May 26.—After a sensationally active advance at the opening, cotton lost the gain during the middle session under heavy liquidation and reports that leading bulls had unloaded, to steady up toward the close on covering promoted by firmer Southern spot markets and large exports. The opening was strong at an advance of 16 to 20 points with excited buying for both accounts in progress and short sellers of the previous day acting badly scared by the higher Liverpool cables, reports of rain more or less generally over the belt and apprehensions of a renewal of aggressive bull support. But at the advance, leading interests sold very heavily indeed and when prices had gained another point or two on the active months, the continued realizing, the absence of concentrated bull support and rumors that recent leading bulls, having taken profits, were going short for a turn, eased the market off. But while the idea that the bulls had unloaded was borne out by a statement issued by the bull leader stating that without being bearish he had taken his profits, reports of firmer Southern spot markets and the bullish character of private advices concerning new crop prospects caused covering at the decline, and in the late trading the market was steady to firm with closing prices steady at a net advance of 5 to 9 points. Sales of futures were estimated at 550,000 bales. Southern spot markets were unchanged to 1-8c higher.

SPIRITS TURPENTINE.

—Shelby is to have a daily paper to be edited by Mr. J. P. Wiggins. The town is also to vote on bonds for waterworks and electric lights.

—The recent election in Selma N. C. between the forces desiring prohibition and those wishing a continuance of the dispensary, resulting in a majority of eight for prohibition, will be contested. The matter will be taken into the courts.

—John McElhaney was fatally injured in the southern part of Gaston county by Robert Currence, a few days ago. The two were hoeing cotton in a field together when they fell out. Currence struck McElhaney with the blade of his hoe, cutting through the skull and penetrating the brain. McElnaney died Tuesday morning. Currence made his escape.

Chatham Record: Mr. M. J. Jordan has bought the old "Taylor" place on Deep river, between Gulf and Cumnock. This tract contains over 15,000 acres, and for many years was supposed to have valuable coal deposits, but repeated efforts failed to develop enough to pay for mining. Mr. Jordan will put a saw mill there, for the timber is much more valuable than the coal.

—Charlotte Chronicle: The cotton mill men drew upon Charlotte for a president for their association; the bankers did likewise, and now the doctors have been equally wise and have looked to Charlotte for a president of the State Medical Association. This officer was secured in Dr. E. C. Register and he will make a good one. The mill men, the bankers and the doctors have been fortunate in their respective selections.

—Newbern Journal: A gentleman of Pamlico, who was in the city yesterday gives a very discouraging report of the potato crop in that county, and predicts an unusually short crop. It seems that the frost in April did the work. Where plants were nipped, numerous sprouts appeared and the consequence is a heavy crop of vines, but no tubers. The hill seems to be matted with strings and roots, but the potato is absent.

—Another negro convict has escaped from the force working on the Raleigh and Southport road near Lillington The State's Prison sends out the following notice: "Jack Griffin, a black negro, about twenty-five years old, 5 feet 7 or 8 inches high, weighs 160 or 165 pounds, scar above the left ear, escaped from the convict camp near Lillington, Harnett county, May 25th, 1905. He was sentenced in 1894 from Iredell county for a term of ten years."

—Concord Tribune: W. L. Buchanan, manager of the Concord Cotton Oil Mill, is getting his surplus stock of meal ready for an early shipment, the entire amount of this stock on hands, about 400 long tons, to go to Europe. The Cotton Oil Company ships a good deal of its product to foreign market and this shipment cleans up the stock at the Concord mill. This is one of the largest shipments this mill has made and it is being rapidly loaded for shipment

—At Raleigh on Thursday the Colowus Gold Mining and Milling Company, of Bates, Union county, filed with the Secretary of State a certificate of increase of its capital stock from $100,000 to $10 000,000, all on one class, common stock. C. F. Coffe and M. W. Shaffer are president and secretary, respectively, of the corporation. The Williams Milling Company, of Angier, with $25,000 authorized capital and $3,000 paid in stock, was chartered The objects of the concern are to deal in timber lands, manufacture lumber and operate ginneries and grain mills; to deal in cotton and maufacture articles of utility. The incorporators are: Jos. Williams, J. M. Williams and J. H. Williams, all of Angier.

—Raleigh News and Observer, May 26: Mr. H. Harold Hume, State Horticulturist, returned to Raleigh yesterday from Washington, D. C., where he conferred with Officials of the National Department of Agriculture relative to farm irrigation in North Carolina. Mr. Hume succeeded in securing the cooperation of the National Department in this work, and representatives from Washington will be sent to this State to work with Mr. Hume and his assistants in making irrigation tests. There are at present only two kinds of irrigation extensively in use in this State, the furrow, and the piston pump. It is thought that the centrifugal pump is better than either of the other two, and a score of tests will be made.

—Raleigh News and Observer: Solicitor C. C. Daniels, of Wilson, reached the city yesterday afternoon from Henderson, the criminal portion of the work of Vance county court being completed. Mr. Daniels says the docket was a light one. The case of the greatest interest tried was that in which a negro woman, Alene Satterwhite, submitted to a verdict of manslaughter for the killing of a four-year-old negro child. The woman is said to be mentally unbalanced and to have a mania for killing children. In this case she wanted to go to sleep and as the little child was wakeful and would not let her, she strangled it. Because of her mental condition her sentence was made ten years in the State's prison.

—Raleigh News and Observer, May 26th: The one thousand dollars' reward offered by the Standard Oil Company for the perpetrators of the murder, the burning and the robbery in Raleigh last Saturday morning has brought as yet no clue. A permit for the rebuilding of a warehouse on the same site has been asked for from Chief of Police Mullins, who declined to grant it and the matter will be referred to the Board of Aldermen. Nearly all of the property owners and residents of that section yesterday signed a petition asking that the city of Raleigh compel the Standard Oil Company to erect their new plant outside of the city limits and vigorously protesting against their rebuilding on the same lot, claiming that in case of another fire all of the surrounding residences would be in danger of total destruction.

A DANGEROUS MISTAKE

Wilmington Mothers Should Not Neglect Kidney Weakness in Children.

Most children have weak kidneys.
The earliest warning is bed-wetting.
Later comes backache, headache, languor.
"Tis a mistake to neglect these troubles,
To blame the child for its own disease the kidneys—
Save the child from deadly kidney ills.
Doan's Kidney Pills cure sick kidneys.

Wilmington [illegible] testimony:

J. T. [illegible], formerly of [illegible] Sixth street, [illegible] used Doan's Kidney [illegible]. My little girl complained [illegible] pains in the small of her back, [illegible] the kidney secretions were dark and full of brickdust sediment. We were very much worried about her and when I learned of Doan's Kidney Pills I went up to R. R. Bellamy's drug store and got a box and gave them to her. Since using them she has improved wonderfully and is a different child. Her kidney secretions cleared up, she does not complain of her back, and in fact Doan's Kidney Pills gave her new life. We are very much pleased with them and you can use my name and welcome."

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundancy.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Cray, of Calhoun, Ga., writes: "My wife had a very aggragated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs, and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At R. R. Bellamy's drug store, price 50 c. and $1.00 guaranteed. Trial bottle free. **

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt a like new man, and to-day I am cured of all my troubles." Guaranteed at R. R. Bellamy's drug store; price, 50c. **

A Creeping Death.

Blood poison creeps up toward the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c. at R. R. Bellamy's drug store. **

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

GREAT NAVAL BATTLE HAS WORLD ON TIP-TOE

By Cable to The Morning Star.

Shanghai, May 26.—Noon.—There are indications that Rear Admiral Rojestvensky has divided his fleet. Seventeen vessels of the Baltic fleet anchored at Saddle Islands last night. It is believed that they coaled there and that from that point they will proceed north.

The News Confirmed.

London, May 26.—A dispatch to Lloyds from Shanghai under today's date says it is reported there and generally believed that several Russian war vessels have arrived off the Saddle Islands, a group of twenty-five small islands, situated about 60 miles southeast of Shanghai.

The dispatch adds that three vessels of the Russian volunteer fleet and three colliers are anchored off Shanghai.

The Whole Fleet Located.

Tsing Tau, May 26.—The whole Russian fleet is assembled near Woosung, and the German squadron at Tsing Tau is preparing for evenutalities.

Japs Thinks They Can Lick the Outfit.

Tokio, May 26.—11 A. M.—It is believed that the action of the Russians in sending some vessels to Shanghai is part of a diversion plan to draw off a portion of the Japanese fleet. It is thought that possibly the Russians intend to intern the slower craft but the visit and withdrawal of the faster vessels is regarded to be without purpose unless as a diversion.

The whereabouts of Admiral Rojestvensky's fleet is not reported and opinion is divided as to whether it has entered the Pacific or returned to the lower Chinese coast.

The location of Admiral Togo's fleet continues to be secret. Popular feeling is undisturbed and the Japanese public is confident that Admiral Togo is prepared to meet any situation.

Russians Make Big Capture.

St Petersburg, May 26.—News of a sucessful cavalry raid by General Mistchenko comes in the following dispatch from General Linevitch to the Emperor, dated May 25:

"A cavalry detachment commanded by Lieutenant General Mitschenko composed of a portion of the South Caucasian Bridge and Trans-Baikal Cossacks, while engaged May 17, in re pulsing the enemy to the southward approached Sinlountchouan. On May 18 squadrons of the vanguard succeeded in reaching the Fakoman road where they burned a stores depot and destroyed the telegraph for a considerable distance. Large bands of Chinese bandits encountered by the detachment were partly annihilated and partly dispersed. On May 19 the main body arrived at the Fakoman-Shifudzy road and found the heights south of Fakoman occupied by a large Japanese force consisting of guards and infantry with machine guns. The Russians attacked and annihilated two Japanese companies and captured another company with all of its officers and two machine guns. The Russians seized a road on the right bank of the Liao river and dispersed near Shifudzy a transport train seven Versts (4 2-3 miles) long, with rice, tinned food and fruit, destroyed the telegragh line and took several prisoners and one hundred horses. On the return journey the Russians dispersed several bands of Chinese bandits. The prisoners taken numbered five officers and 234 men."

Japs Taking Precautions.

Nagasaki, May 26.—Noon.—Three British steamers which were loaded with coal at Moji (terminus of the Kiushiu railway, Japanese) for Hong Kong have been detained under orders from the government.

Chee Foo, May 26.—3 P. M.—All Japanese steamers arriving at this port to-day have been ordered held here pending further instructions.

Gone to Join Rojestvensky.

Tsing Tau, May 26.—A private telegram received here says that the Russian Vladivostok fleet has left Vladivostok, going in a southerly direction.

To Throw Togo Off.

St. Petersburg, May 27.—3:30 A. M.—While a flying raid of one or two commerce destroyers in the eastern sea is admitted as a possibility by the naval authorities here, these authorities are loate to believe that any division of Rojestvensky's squadrons in an important sense has taken place, as reported from Shanghai. They prefer to assume that the unspecified Russian ships reported to be outside of Shanghai, like the six which entered the port of Woosung, are units of the transport fleet without special fighting value, and that perhaps they have been sent thither to confuse the scent of Togo.

London, May 27.—The correspondent of the Standard at Shanghai says that the Russian transports now at Woosung were convoyed by the cruisers Rion and Smolensk.

WARM WIRELETS.

At Washington yesterday bids were opened at the Insular Bureau of the War Department for the sale of $1,000,000 Manila municipal bonds bearing four per cent. interest redeemable after and within thirty years, the proceeds to be devoted to sewerage and other public works. The highest bidder was the First National Bank, of Columbus, Ohio, which offered 1,095,625.

An Asheville dispatch last night, says: Although the parents of Siegfred Roebling, who has been missing since last Sunday, and several search parties have spared no efforts to locate the boy, no trace of him has yet been found. Mr. Roebling, his father, is still of the opinion that his son is hidden somewhere in the neighboring mountains.

Yesterday an engine and caboose, with Engineer Charles Porter at the throttle, made the distance from Tuscumbia, Ala., to Decatur, Ala., on the Memphis division of the Southern railway, forty-four miles, in thirty-five minutes. This run is reported to be the fastest time ever made over the Southern. A resident of Decatur was the only passenger, having chartered the train to hurry to the bedside of his sick wife.

At a special meeting of the New Orleans police board yesterday, Mayor Beiham preferred charges of incompetency against Police Inspector John Journee, whom he had suspended. The board fixed Friday, June 2, for hearing the charges. Inspector Journee says he will not resign and that he will appeal to the courts if the decisoin of the board shall be against him.

At Bristol, Va., yesterday Albert Thompson, of Spartanburg, S. C., charged with assault upon Sidney Rogan, a well known young man of Bristol, was given a preliminary hearing and was held without bail to answer before the September grand jury. A motion for bail will be made in the Hustings Court to-day. W. L. and E. L. Thompson, of South Carolina, brothers of the prisoner, are in Bristol and appeared in his behalf in the police court.

THE PRESIDENT'S CAROLINA VISIT

He Informs Senator Simmons That He Will Be in Raleigh October 2nd

STATE FAIR DATE CHANGED

Mr. Roosevelt Will Also Visit Charlotte, Greensboro and Durham Long Enough to Make Brief Speeches To the People.

By Wire to the Morning Star.

Washington, May 26.—W. A. Erwin, of Durham, a prominent North Carolina planter, and Dr. C. M. Curtis, of Atlanta, Ga., delegates to the Southern Industrial Parliament, were presented to the President today by Senator Simmons, of North Carolina. Mr. Erwin is the author of several resolutions relating to the extension of the cotton trade of the South which were presented to the parliament. The President expressed his deep interest in suggestions for the extension of the cotton industry and said that he was giving consideration to some matters that would be beneficial to the South in an industrial way if carried into effect.

Senator Simmons urged the President to visit North Carolina next autumn at a time which would enable him to attend the State fair in Raleigh on October 16th. The President said he would not be able to be in Raleigh at that time but would be there on October 2nd. Senator Simmons suggested the possibility of changing the date of the State fair to correspond with that of the President's visit to North Carolina, but no decision yet has been reached. It is probable now that the President will stop long enough at Raleigh, Durham, Greensboro and Charlotte to address the people briefly.

Representative Meyer, of New Orleans, also talked to the President about his visit to that city. No definite arrangements have been made but Mr. Meyer said the President would be accorded a great reception.

RIOTING IN CHICAGO

Delivery Wagons Assaulted by Strikers Who Used Deadly Weapons—No Hope of Ending Stirke.

By Wire to the Morning Star.

Chicago, May 26.—At a meeting of the Asociated Building Trades tonight at which twenty-nine trades, affiliated with the building industries, were represented, it was decided that no action will be taken which will tend to drawing the building trades into the teamsters' strike. The action on the part of the building trades will go far toward restricting the strike to its present limits, as it means that the members of the building trades union will work with materials irrespective of the fact that they are hauled in wagons driven by non-union teamsters.

Chicago, May 26.—Rioting broke out afresh today in the teamsters' strike. Although nobody was seriously hurt there were a number of vicious fights in the lumber yards during which the police were compelled to use clubs and in one instance revolvers, to disperse the crowds.

The worse fight in the lumber yards occurred at West 22nd street and Ashland avenue where a crowd of men and boys had all through the morning hurled stones and clubs at every passing lumber wagon. Finally a wagon on which Policeman Bagenski was a passenger came along, and the mob greeted it with the usual volley of stones. They also threatened to attack the drivers. The situation was so serious that the officer, drawing a revolver fired six shots at the crowd which fled in confusion. None of the bullets hit anybody.

This evening rioting occurred near west 35th street and Centre avenue. Lumber wagons returning from making deliveries were attacked by the crowds at every available opportunity. Large numbers of men, armed with clubs, slung shots and bricks accompanied by jeering women and excited children, filled the sidewalks along Centre avenue, West 35th street, Loomis and Archer avenues, awaiting the passage of ,wagons which were believed to be unguarded. They attacked the wagons and policemen were kept busy repulsing them. One policeman was wounded by a shot from an air rifle. A union teamster was arrested as the man who fired the shot.

The strike today spread in a small degree throughout the building trades. There were a number of instances where woodworkers refused to receive the material delivered by nonunion teamsters and walked out. This move in every instance was made by the men as individuals only. There was no official action taken by any of the material trade unions looking to active sympathetic support of the teamsters strike.

Several of the labor leaders in the ranks of the material trades have declared within the last twelve hours that there is no prospect, in their opin ion, of any complete tie up of the building trades by a strike. There is no movement at present looking toward a settlement of the strike. Mayor Dunne today for the first time since the commencement of the teamsters' strike declared that he knew of no contemplated plans for peace.. The mayor talked as though he had abandoned all hope of a settlement.

THE GAS WORKS STEAL IN PHILADELPHIA

Mayor Weaver Confident His Vote of Corrupt Lease Will Be Sustained by Councils.

By Wire to the Morning Star.

Philadelphia, May 26.—"The situation is growing brighter every minute," said Mayor Weaver late this afternoon when asked what progress he was making in his effort to defeat the extension of the lease of the city gas works. He would not give figures nor go into other details, but contended himself with saying he had received assurances from many councilmen who had voted for the lease last week that they would support him in his veto. Leaders of the Republican organization which is advocating the lease continue to remain silent. There are, however, signs that some of the councilmen are breaking away under the tremendous pressure of their constituents and will probably go along with the mayor. The record up to this evening shows that the mayor has ten select councilmen and twenty members of common council with him. In select council there are 42 members. To pass the ordinance over the mayor's veto the organization needs twenty-six votes and the mayor 17 to sustain him. The membership of common council is eighty-four. Here the organization needs 51 and the mayor 34.

The first important move of the new administration—a move that was of vital importance to organization men who hold city contracts—was taken to day when the new director of public works, Acker, annulled the advertisement for bids for street cleaning for 1906. The contract will aggregate about $1,000,000. The contract for this year is held by the Vare Brothers, one of whom is a State senator and another recorder of deeds.

The struggle to hold or win councilmen is growing hotter, and many of the "city fathers" have expressed the wish that he never had been elected to the legislative body. Some of the councilmen are pursued even into the privacy of their homes, and delegations are calling on them at all hours of the day and night.

There was another demonstration when the mayor left the city hall today for lunch. His reception as he walked along the streets with Director of Public Safety Potter was a noisy one. On his return a crowd of about 300 persons was awaiting him and followed him to his office. As he entered some one proposed singing the "Star Spangled Banner" which was done with all hats removed.

"Resolved, That we, citizens of Philadelphia without regard to party or politics do hereby before God and man, pledge our life, liberty and sacred honor to the complete overthrow of despotic methods in municipal affairs, and the restoration of the American principles for which our fathers fought, and which shall ever be our glory while we remain worthy to be called their children."

Amid tremendous cheering and the waving of flags, several thousand persons who were packed in the academy of music to hear prominent Philadelphians express their protest against the gas lease adopted the above quoted resolution. It was a scene that gave the opponents of the lease renewed inspiration and the cheering lasted for several minutes. The principal speaker at the meeting was Charles Emory Smith.

FEDERATION POSTPONED

Southern Presbyterian General Assembly Nearly Equally Divided On Question—To Meet in Greenville.

By Wire to the Morning Star.

Fort Worth, Texas, May 26.—The 45th General Assembly of the Southern Presbyterian church adjourned this afternoon.

Moderator Plunkett declared the convention dissolved at 5:30 and at the same time called the next session to meet at Greenville, S. C., at 11 A. M. on the third Tuesday in May, 1906.

The discussion of the question of Federation with other branches of the was long drawn out and when the end came it was as far from a final settlement as at any time during the debate, which preceeded the vote. There is an irreconcilable element in the church, that force fully minifested itself, which is opposed to federation and there is an element slightly stronger that favors it, but neither side mustered the necessary strength to definitely settle hte matter. In the end the question by a vote of 93 to 81 was merely referred back to its committee to which were added three more members. The committee was instructed to bring another plan of federation before the next assembly.

An amendment offered by Dr. Eugene Daniel, to the federation committee report, discontinuing the question of federation, was lost, and his substitute amendment that the General Assembly should declare its inability to accept the plan of federation outlined by the joint conference committee at Pittsburg, Pa., last January was also lost.

The vote on the question of union was a close one.

Four ballots were taken before a decisions was reached, the last one being taken by calling the roll when the vote stood 93 to 81 in favor of the report of the committee, which, however, was insufficient for final settlement.

The greater portion of the afternoon session was taken up with routine work.

On the question of a definition of the terms "Commission" and "Committee" the minority report, by the committee appointed on the subject at the general assembly of 1902 was adopted.

The salary of the stated clerk was raised from $500 to $750 per annum.

The reports of the committee on colored evangelization and ministerial education and relief were read and adopted without debate.

A report from the bills and overtures committee was read and regarding the installation of ministers and the persons necessary to be in attendance at the installation. This was adopted making it possible to install a pastor without paying but four persons, three ministers and one elder. This was the decision of a previous assembly.

Other matters of minor importance were taken up and disposed of as rapidly as they could be read before the assembly the final adjournment being taken at 5:30 o'clock.

The International Association of Chiefs of Police adjourned yesterday, at Washington, to meet in Hot Springs, Ark., one year hence. All the old officers were re-elected unanimously. With a view to increasing the efficiency in the use of the revolver by policemen, the association regarded with favor and referred to the executive committee for report a proposition by Colonel Edward Dimmick, of Washington, a rifle expert, to furnish a trophy to the police team of the country showing the greatest proficiency in the use of the revolver.

GREAT BANKER DIED IN PARIS

Baron de Alphonse Rothschild Was World's Greatest Financier and Benefactor

FINANCED A. C. L. AND L. & N.

Governments of Europe Defended Upon Him When They Needed Millions—Gave $2,000,000 for Workingmen's Home.

By Cable to The Morning Star.

Paris, May 26.—Baron Alphonse de Rothschild head of the French branch of the banking house bearing the name of Rothschild, and Governor, of the Bank of France, died at 4:30 this morning from acute bronchitis aggravated by gout. The eminent financier had been sinking slowly for many days but there was no apprehension that his death was imminent.

He passed away this morning peacefully, surrounded by his family. The announcement of the baron's death caused wldespread regret, for, besides his position in the financial world, Baron Alphonse was known for his lavish charities, one of the latest being the gift of $2,000,000 for the erection of a workingmen's home. The deceased was born in 1827, and will be succeeded as head of the Paris banking house by Baron Lambert de Rothschild, of Brussels, whose business capacity has earned him a world-wide reputation.

The burial of Baron Alphonse will be most simple, according to the strict rule of the Rothschild family, including a plain coffin without mourning tributes. The funeral, the date of which has not yet been fixed, will be the occasion of a notable tribute of respect.

A member of a French-American banking house said:

"Baron Alphonse was the leading spirit of the Rothschilds in their relations with practically all the governments of Europe. Besides the colossal task of financing the indemnity which France paid to Germany after the Franco-German war of 1870-71 he actively carried on relations with other governments. In Italy these included both the government and the Vatican finances. The house has also had considerable dealings with American securities through the Belmonts, J. Pierpont Morgan and John W. Gates, including Louisville and Nashville and the Atlantic Coast Line transactions, and also has extensive interests in mines in California."

Baron Alphonse leaves two children, Baron Edouard and Baroness Beatrix. He has two surviving brothers, Baron Gustav and Baron Edmond.

AFTER GRUBB'S ASSAILANT.

Police Scouring Country In and Around Asheville, N. C.

By Wire to the Morning Star.

Asheville, N. C., May 26.—After he had held off the sheriff of McDowell county, at Old Fort last night, with a loaded shot gun, Nat Crump, the negro who shot and seriously injured H. Clay Grubb from ambush at Salisbury last Monday, started toward Asheville and when seen, was three miles from the city. Later he was reported to be hidden in the negro quarter of the city and six policemen with loaded shot guns surrounded the house. Crump, however, had got wind of their coming and disappeared. The police are patroling all sections of the city this morning in search of the outlaw, for whose capture dead or alive, a reward of $750 is offered by the Salisbury authorities.

Major John M. Carson, Washington correspondent of the New York Times and the Philadelphia Public Ledger, probably will be appointed chief of the bureau of manufactures, Department of Commerce and Labor, to succeed J. Hampton Moore, who has resigned to accept the presidency of a Philadelphia Trust Company. Major Carson is chairman of the standing committee of Washington correspondents, and is regarded as being eminently well equipped for the office.

THE ENGAGED GIRL.

Some of the Things That It Would Be Wise Not to Do.

Don't set your lover on a pedestal or imagine him to be endowed with great moral and intellectual qualities. He may not be able to live "up to it." Don't write to him sentimental letters, for he may keep them, show them or carelessly leave them open about his room. Tell him how you feel toward him, but never write it down. Don't drag his name in every sentence which you utter. Don't play constantly with your engagement ring or display it unduly. Don't assume a superior air or snub girls who are not in the same blissful state as you are. Remember that you are not the only girl in the world who has been engaged. It is nothing to boast of. There are many women who are sorry that they were once engaged. You may be one of those. No; don't boast about your engagement. You may as well boast that you are a good sailor while the boat is under a serene sky and on a smooth sea. Wait till the sea gets rough. Then, and then only, will you know whether you are a good sailor or not. "Engaged" life is no rehearsal of married life. Don't make your lover the sun of your life, the center of all your actions, for he is but human and may prove sadly disappointing. Don't lavish your attention on him to the exclusion of all other ties. Don't exhaust your vocabulary. Keep something nice to tell him after the wedding, something which he has not heard before.—Max O'Rell.

RIGHTS OF WOMEN.

The Question of Independence and Equality Before the Law.

Men are gradually discovering that they cannot deprive women of equal rights without suffering themselves. They pay the penalty of occupying a lower grade of civilization. The man who treats a woman as an inferior and refuses to accord her justice cannot attain the highest estate in this life. He stands on too low a plane. There is no man living who holds a commission which authorizes him to sit in judgment on the rights of women. Woman has precisely the same title and right to independence and equality before the law that man has. Both hold the title from the same source. She has just as much right to sit in judgment on man and limit his sphere and his actions as he has to limit hers.

Therefore any attempt by man to deny woman independence or equality of rights is simply the assertion of brute force. Brute force degrades those who successfully use it. Every time it is resorted to there is a reaction toward the brute creation. The story of the wrongs done to woman is as old as time, and the blight and curse of it has followed man through centuries.—Governor John P. Altgeld in "The Cost of Something For Nothing."

KITCHEN RULES.

A tablespoonful is measured level.

One teaspoonful of salt to one quart of soup.

One teaspoonful of salt to two quarts of flour.

One teaspoonful of soda to a cup of molasses.

One teaspoonful of soda to one pint of sour milk.

One teaspoonful of extract to one plain loaf cake.

One teaspoonful of extract to one quart of custard.

A cupful is all the cup will hold leveled with a knife.

One saltspoonful of white pepper to each quart of soup stock.

One quart of water to each pound of meat bone for soup stock.

Three heaping teaspoonfuls of baking powder to one quart of flour.

One scant cupful of liquid to two full cupfuls of flour for muffins.

Half a cupful of yeast or quarter of compressed cake to one pint of liquid.

One tablespoonful of extract to one quart of cream or custard for freezing.

Peanut Macaroons.

For peanut macaroons beat the whites of three eggs until foamy, add one-fourth teaspoonful of cream of tartar and beat until dry. Then beat in gradually half a cup of very fine granulated sugar. When all is in and the mixture is very light, fold in half a cup of sugar, one teaspoonful of flour and one pint of peanuts, crushed or chopped to a fine powder. Drop by teaspoonfuls on to a tin lined with a buttered paper, making smooth rounds. Sift granulated sugar on the top of each and bake on the floor of a quick oven from five to seven minutes. English walnuts or other nuts may take the place of the peanuts. A cherry or a bit of firm fruit jelly or marmalade pressed into the center of the top of each gives flavor when walnuts or pecan meats are used.—Boston Cooking School Magazine.

Sews With Her Mouth.

It would seem that the use of the hands would be a necessity to a seamstress, yet there is an expert in needlecraft living at Sag Harbor, N. Y., who has no use of either hands or feet. She does the most exquisite work holding her needle in her mouth. When she wants to thread a needle she sticks it into the soft wood of her work table with her mouth and then, biting off the cotton the right length, passes it through the eye with her lips with more quickness and dexterity than most nimble fingered women show. She can tie knots in her thread with her tongue and works quite rapidly. One of the specimens of her skill is a crazy quilt which contains over 800 different fancy stitches. She is also an artist of some skill in the use of brush and crayons.

A Disagreeable Habit.

Old Grumps—Sure that girl loves you instead of your money?

Son—Absolutely. Why, she actually keeps count of the kisses I give her.

Old Grumps—Hum! That's bad. She may keep it up after marriage.—New York Weekly.

Some young fellows want everything for nothing, and when they are older they get nothing for everything.—Schoolmaster.

Overmatched.

"Now, witness," said the lawyer, "you say that your hearing is good?"

"Yes, sir."

"How good? Give me an illustration. Can you hear my watch tick?"

"No, sir. It's three days since I saw you going into the pawnshop, and the watch must have run down by this time."

So much we do not know.
